All the Old Methods of Corruption and Intrigue at the Court Resumed with Vigor.

PEKING, Jan. 14.- The first week of the rehabilitation of the Chinese court and of its resumption of authority at the capital has been a period of intense interest for all classes of Chinese and foreigners. But the work has hardly sufficed to furnish proofs from which deductions regarding the policy of the Empress dowager under the new conditions can be drawn. That she | alleged Goebel murder suspect, was the disaptempt to crush progress and that she recognizes that foreign interests and opinions must be respected, is apparent. Mr. Babcock Says His Measure Is in Line with the Expressed Policy of the Republican Party.

WASHINGTON, Jan. 14.-Representative Babcock, of Wisconsin, to-day introduced a bill placing a number of articles of the iron and steel schedule on the free list and materially reducing the duties on other articles throughout the iron and steel schedule. The presentation of this schedule has been awaited with much interest, owing to the attention aroused last year by a somewhat similar bill and Mr. Babcock's position both as a Republican member of the ways and means committee and chairman of the Republican congressional committee. The bill is more extended than that of last year, and was drawn after conferences and correspondence with the steel and iron interests, the purpose being to place the rates on a strictly protective basis. Speaking for his company, Mr. Ward said that for a great many years Mr. John W.
